

2019 Course Evaluations

Opinions of course, including printed materials.

- Absolutely loved this course and statistics and genetics combination relevance.
- Great course- valuable information.
- The course project was very useful. Also I liked the quiz at the beginning of the year.

Qualities of Instructor which contributed to success of the course.

- She was a great instructor. I learned so much from this course. I like how she wrote notes on the whiteboard.
- Maximum effort to respond to student questions and concerns. Frequently providing supplementary material when needed. The instructor's strength in the subject material was apparent.
- She is helpful and respond to questions and requests within a day.
- Approachability, Availability, Expertise.
- Super helpful and explains everything needed.
- Thank you Dr.Bacher for always being so helpful :)
- Dr. Bacher is very diligent, responsive and willing to help when the students had questions either by email (even during weekends!) or dedicating office hours in one-on-one sessions. This was very beneficial for me.
